IEC C14 to IEC C15 Power Cable - Heavy Duty, 15A, 100-250V, 14 AWG, 2 ft., White

MODEL NUMBER: **P018-002-AWH**

Heavy-duty C14 to C15 power cord connects a PoE network switch or other device with a C16 power inlet to a PDU or UPS system.

Features

C15 to C14 Power Cord for Network Devices That Require a Heavy-Gauge Connection
This 250V C15 to C14 cable features 14 AWG wire suitable for high power connections, making it reliable for large server applications that require a higher-rated, heavier-gauge cable. The C15 connector is designed for higher-temperature devices, such as electric kettles, PoE (Power over Ethernet) switches with high-wattage power supplies, and similar network components. This IEC C14 to IEC C15 cord can also replace or upgrade the standard power cord provided by the device's manufacturer. The two-foot length helps reduce cable clutter and minimize the risk of tripping.

Color-Coded to Avoid Misidentification That Can Cause Costly Downtime
This C15 to C14 power cable features a white SJT jacket and fully molded white ends. The color-coding allows easy, fast identification in a crowded rack or workstation and helps prevent the cable from becoming inadvertently disconnected**.**
